The Court has entered Orders approving each of the Interim Fee Applications. *See* Doc. Nos. 85, 98, 115, 135 and 150. As a result, Applicant has received payment of the \$354,083.91 requested by Applicant in the Interim Fee Applications.

Additionally, Applicant requests final approval of the fees and expenses incurred by Applicant during the Sixth Interim Application Period.

2. By this Application, Applicant seeks final approval of all requested fees and expenses during the Final Application Period.
3. Person(s) who performed services during the Sixth Interim Application Period:

By authority granted in the Order, the Receiver retained the law firm of Maynard, Cooper & Gale, P.C. to assist in the fulfillment of the Receiver’s duties under the Order. The professionals

and paraprofessionals listed below have provided services to the Receiver in connection with the receivership matter:

Name	Position	Discounted Billable Rate 2016/2017	Time	Total
Leland Murphree	Shareholder	\$305.00	8.3 hours	\$2,531.50
Ryan Thompson	Associate	\$285.00/\$300.00	18.6 hours	\$5,580.00
Andrea Prince	Paralegal	\$185.00	4.4 hours	\$814.00
TOTAL			31.3 hours	\$8,925.50

Applicant has provided substantial services to the Receiver in connection with the Receiver's service in the above-stated matter, including significant court time and preparation, drafting of motions, marshaling, preserving and protecting the Health Care Premises (as defined in the Order), advising on regulatory compliance, selling the Health Care Premises and transferring ownership thereof, evaluating and prosecuting claims of, and against, the Receivership Estate and advising the Receiver on various issues regarding compliance with his duties and obligations under the Order. A detailed summary of hours expended and matters performed by Applicant's professionals and paraprofessionals during the Sixth Interim Application Period is attached hereto as Exhibit 1.

4. Applicant submits this Application pursuant to the Order. In determining the allowance of attorneys' fees and reimbursement of expenses, the Eleventh Circuit has concluded that the Court must: (1) determine the nature and extent of the services rendered; (2) determine the value of those services; and (3) consider the twelve factors adopted by the Eleventh Circuit. *See Grant v. Schumann Tire & Battery Co.*, 908 F.2d 874 (11th Cir. 1990); *Norman v. The Housing Auth. of the City of Montgomery*, 836 F.2d 1292, 1299 (11th Cir. 1988). Applicant has addressed each of these issues separately below.

a. **Nature and Extent of the Services Rendered**

Since the date of appointment, Applicant has participated in all aspects of the Receivership. As more fully described in the detailed billing records contained herein, Applicant has assisted the Receiver in the following: enforcing the Defendants' turnover of assets and records of the Receivership Estate and compliance with the Order; advising the Receiver on compliance with his duties and obligations under the Order and applicable law; advising and representing the Receiver in connection with complex regulatory issues and negotiations with state and federal regulators and assisting the Receiver with regulatory filings; marketing, negotiating, auctioning and selling and transferring the Health Care Premises free and clear of liens, claims and encumbrances in accordance with state and federal law; negotiating and drafting agreements with the manager of the Health Care Premises and third party vendors; establishing and obtaining Court approval of claims administration and distribution processes; evaluating and dealing with claims and causes of action against the Receivership Estate; and evaluating and prosecuting claims and causes of action of the Receivership Estate against third parties.

b. **Value of Services**

An objective estimate of value of the services for an attorney is determined by multiplying the number of hours reasonably expended by the attorney's reasonable hourly rate. *Grant*, 908 F.2d at 878; *Norman*, 836 F.2d at 1299. This estimate is referred to as the "lodestar" method. The attorney's reasonable hourly rate is the prevailing market rate in the relevant legal community for similar services by attorneys of reasonably comparable skill, experience and reputation.

During the course of Applicant's service, Applicant utilized lawyers and legal assistants with different skills and expertise, as necessary. The hourly rates of these professionals reflect the differing skills and experience of its lawyers and are in conformity with the prevailing market rates of this legal community for attorneys with comparable skill and experience. The skill and experience of Applicant's attorneys has been of benefit to the parties hereto, and the complexity and difficulty of the issues involved in this case warrant the full allowance of fees requested for the services performed by Applicant.

As reflected in Part I, above, Applicant has voluntarily applied discounts and is requesting that it be compensated at its "preferred" rates, which are much lower than its standard hourly rates. Applicant's rates were increased effective January 1, 2017 in accordance with Applicant's 2017 standard rate increases, applicable to all attorneys and paraprofessionals.

c. **Twelve Factors Applied by the Eleventh Circuit in Determining the Reasonableness of Rates and Hours.**

- i. *Time and Labor Required:* Applicant has attached detailed itemized records of the time expended by Applicant's professionals and paraprofessionals, reporting the substance and time of every transaction performed. Applicant asserts that the time and labor required are requisite and reasonable for the efforts expended in this case. Applicant brings to the Court's attention the broad range of results that it has accomplished in a very short period of time, the added time necessary to take over and sell heavily regulated assets, the Defendants' efforts to interfere with and exercise control over the Receiver's actions, and the evaluation, prosecution and settlement of a wide range of claims and causes of action asserted by the Receiver against third parties.
- ii. *Novelty and Difficulty:* Many of the issues arising in this case have been complex, time-consuming, and disputed by one or more of the parties to the receivership proceeding. Applicant has dealt with novel and difficult questions in this case that warrant the full allowance of the fees requested for the services performed. Applicant has negotiated and resolved complex regulatory issues with state and federal regulators and quickly sold the

Health Care Premises free and clear of liens, claims and encumbrances via a stalking horse auction, all of which involved complex issues. Applicant devoted significant time and effort to establishing, obtaining Court approval of, and implementing claims administration and distribution processes and resolving claims of lienholders in a priority dispute. Lastly, Applicant evaluated, prosecuted and settled complex claims and causes of action of the Receivership Estate against third parties and evaluated strategy with respect to payment defaults under settlement agreement and rights thereunder.

- iii. *Skills Requisite to Perform Services Properly:* A high level of skill across a broad range of disciplines has been necessary to render the required services to the Receiver and demanded by the complex issues present in this difficult matter. When possible, Applicant has made every effort to delegate matters not requiring more experienced attorneys to younger, less experienced attorneys for more cost-effective representation. Moreover, Applicant has been careful to avoid duplication of effort with other professionals. However, given the threats to the Receivership Estate, complex and disheveled affairs left behind by the prior owner/operator of the Health Care Premises, pressure from regulators, need to achieve substantial results within a very short period of time due to financial and regulatory constraints on the Receivership Estate, complexity of closing the sale of the Health Care Premises, implementing a claims administration and distribution processes, and prosecuting and settling claims and causes of action of the Receivership Estate against third parties and addressing payment defaults under settlement agreement, this matter required the substantial attention of experienced and skilled attorneys.
- iv. *Preclusion from Other Employment:* Applicant's devotion to this case has, at times, caused Applicant to be precluded from devoting the same time to other clients who pay for services rendered on a no-risk current basis. The services provided to the Receiver have not caused conflicts of interest to occur.
- v. *Customary Fee:* The hourly rates set out herein are the rates Applicant typically charge (and in fact, reflect reductions in the rates typically charged), and said fees are considered fair and reasonable in the community.
- vi. *Fixed or Contingent Fee:* The fee is not contingent, other than the estate's ability to pay and approval from this Court, and no amount of the fee has been guaranteed by a third party.
- vii. *Time Limitations Imposed by Circumstances:* Given the need to seize control of the Health Care Premises, ensure regulatory compliance, continue providing a high quality of care to the residents of the Health

Care Premises, deal with the financial and regulatory constraints on the Receivership Estate, and administer and prosecute claims of and against the Receivership Estate in a manner that would allow for the prompt wind down of the Receivership Estate, Applicant has had to assist the Receiver in obtaining the Receiver's goals as quickly as possible.

- viii. *Amount Involved and Results Obtained:* As a result of Applicant's efforts, the Receiver has preserved and liquidated the Health Care Premises, has collected accumulated cash from accounts receivable in excess of \$500,000 and collected gross proceeds from the Sale of the Health Care Premises in excess of \$3,600,000. Further, the Receiver has prosecuted, mediated and settled claims of the Receivership Estate against certain Defendants and third parties, as well as claims of such parties against the Receivership Estate, resulting in present and future cash payments to the Receivership Estate totaling approximately \$165,000, the release of administrative claims against the Receivership Estate in excess of \$130,000, and the further release of disputed claims filed with the Receivership Estate in excess of \$1,000,000. Applicant's prompt resolution of claims of, and against, the Receivership Estate will allow the Receivership Estate to wind down sooner and will save the Receivership Estate thousands of dollars in litigation costs and professional fees.
- ix. *Experience, Reputation and Ability of Professionals:* Applicant's professionals have a wealth of experience in bankruptcy, receiverships, litigation, health care regulations and transactions and general corporate matters.
- x. *Undesirability of the Case:* This factor is generally not applicable to the case at bar, however, there is some risk associated with the failure of the assets of the Receivership Estate to yield sufficient funds to pay Applicant, as well as multiple threats by the Defendants to file for bankruptcy.
- xi. *Nature and Length of Professional Relationship with the Client:* Applicant has assisted the Receiver in the fulfillment of his duties since the Receiver's appointment by this Court in its Order Appointing Receiver dated March 18, 2014.
- xii. *Awards in Similar Cases:* Applicant relies on this Court's experience and knowledge with respect to fee awards in similar cases. Applicant believes that the fees it seeks to have awarded as a result of this Application are comparable to those awarded in similar cases of this complexity and difficulty.
